Environment Policy

NutriVita Foods's philosophy is to carry out 'environment-friendly' business activities by taking environmental conservation into consideration and recognizing that global environment conservation is an issue that should be given the highest priority.

As a responsible corporate entity, **NutriVita Foods** recognizes and accepts that we have a responsibility both towards our environment & community. Our company is committed to ensuring that environmental considerations are an integral part of our daily operations & we have adopted the following guidelines in pursuance of this commitment:

1. To Establish, maintain and operate facilities that comply with all applicable environmental health & safety laws and statutes.
2. To conserve natural resources specially **Water, Energy and Fuel** by using them judiciously and reducing wastage.
3. To ensure that all procurement related decisions, including packaging and all its direct and indirect process-aids used in the operation, are made considering the impact on environment.
4. To Communicate & Promote the company's ideologies on Environment to its staff, business partners & clients.
5. Believing in and pursuing a system of continuous improvement to lessen the impact that our operations may have on the environment.

This policy will be reviewed regularly to ensure conformity with contemporary environmental protection initiatives.

Shailesh Purohit

**CEO
Nutrivita Foods**
