Good Nutrition Brighter Futures

We manufacture high-quality, locally relevant food products to help prevent and treat malnutrition, so that every child and community can reach their potential.

Nutrivita Foods Private Limited was established in 2010 in Pune, Maharashtra, India.

We are an Indian agri-food company specializing in the manufacturing of Ready-to-Use Therapeutic Food(RUTF) and Ready-to-Use Supplementary Food (RUSF) with high nutritional value. Our products are designed to combat malnutrition across India, Asia, Africa and other developing regions.

OUR MISSION

To provide home-based nutritional solutions to children and vulnerable populations affected by malnutrition, through high-quality, innovative and locally relevant food products.

OUR VISION

A world free from hunger, where malnutrition is no longer an obstacle to human development, and every child and community can thrive.

EXPERTISE & CAPABILITIES

FROM SCIENCE TO SUPPLY

Integrated expertise to deliver safe, nutritious food for a healthier tomorrow.

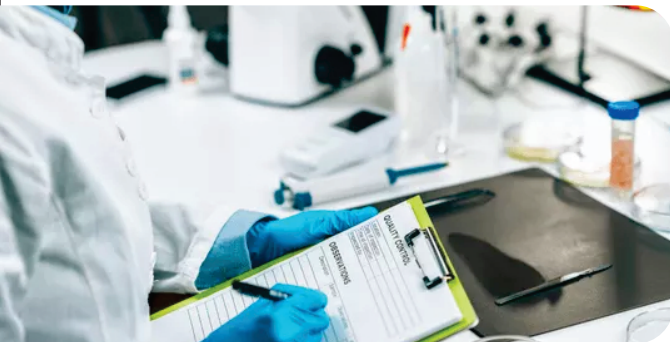

RESEARCH & INNOVATION

Through research partnerships, Nutrivita Foods deepens its knowledge of the mechanisms of malnutrition in vulnerable groups, such as pregnant women and newborns. We focus on product development and continuous improvement using locally relevant ingredients to create effective nutritional solutions.

PRODUCTION & MANUFACTURING

Nutrivita Foods implements the best food-processing methods, techniques and efficient machinery to transform raw ingredients into high-nutritional-value food. We maintain flexibility in production volumes to meet client needs and remain operational in times of food crisis or humanitarian emergencies.

QUALITY & COMPLIANCE

Under our strict quality policy, we apply high hygiene standards, aligned to GMP norms, with efficient control and maintenance processes. Rigorous quality assurance ensures safety and consistency, supported by our NABL-accredited laboratory for microbiological testing.

DISTRIBUTION & LOGISTICS

Our expertise is to provide the right product at the right time. We work with trusted service partners specialized in shipping and logistics to ensure minimum delivery times. Our teams coordinate production schedules, finished goods stocks, procurement of raw materials, loading schedules and shipment readiness for domestic and international programmes.

ACCREDITATIONS & CERTIFICATIONS

OUR NUTRITION SOLUTIONS

FOR TREATMENT & PREVENTION OF MALNUTRITION

Nutrivita manufactures nutritional products designed to treat and prevent malnutrition in vulnerable populations. Our scientifically formulated, ready-to-use foods support children and communities with high-quality, effective and easy-to-use nutrition solutions.
